To complete your profile, click the link inside the e-mail or copy the link into the address bar of your browser.

Troubleshooting

Spam Filters
Please ensure that your spam filter is set to allow e-mails from supportkey@watchguard.com. If you have not received the confirmation e-mail, please check your spam folder to see if it was mistakenly identified as spam.

Expiration Date
You have 48 hours to confirm your e-mail address. If you do not respond within 48 hours, your profile will expire and be removed from our records. You will then need to fill out the profile form again and confirm your e-mail address.

E-mail Address Incorrect
If the e-mail shown above is not correct, please edit your profile and we'll automatically send you a new confirmation e-mail.

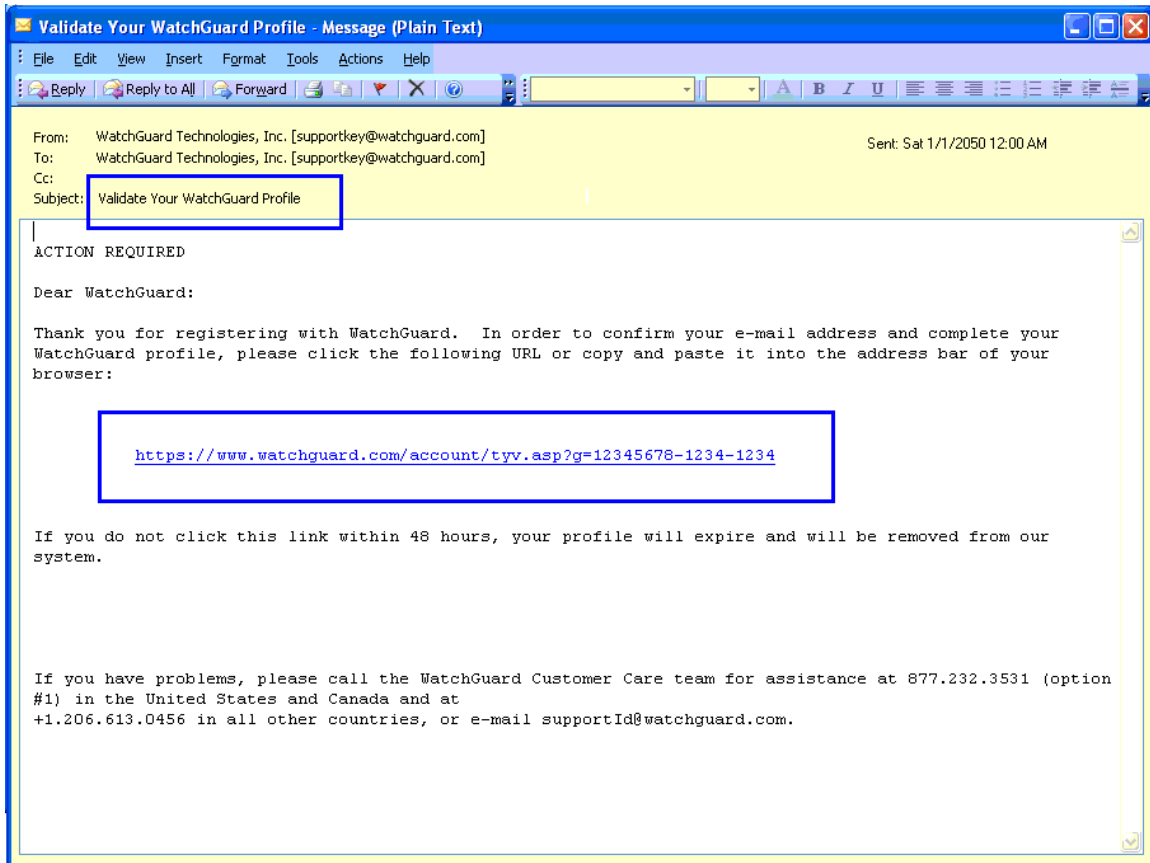

Resend E-mail
If the e-mail address shown above is correct, but you believe the confirmation e-mail was lost or deleted, we'll send another confirmation e-mail to the same address.

Contact WatchGuard
If you continue to have problems, please call the WatchGuard Customer Care team for assistance 877.232.3531 (option #1) in the United States and Canada and at +1.206.613.0456 in all other countries, or e-mail supportid@watchguard.com

Etape 6

Ceci est une page de confirmation. Elle montre si l'activation a été réussie.

The screenshot shows the WatchGuard website's 'LIVESECURITY SERVICE' page. The header includes the WatchGuard logo, a 'United States' dropdown menu, and navigation links for PRODUCTS, PARTNERS, SUPPORT, ABOUT US, HOW TO BUY, SEARCH, and PROFILE. Below the header, there are links for LIVESECURITY SERVICE, MANAGE PRODUCTS, ACCOUNT OPTIONS, SOFTWARE DOWNLOADS, TOOLS & SERVICES, ALERTS & ADVICE, and ONLINE STORE. The main content area features a 'Manage Products' section with the heading 'Activation Successful' and a message: 'Your Firebox@ X10e UTM Software Suite activation was successful.' Below this message is a list of two items: 'Gateway AV/IPS and spamBlocker require version 8.5 or later of the Firebox X Edge e-Series software. [Get latest software.](#)' and 'View [Product Details](#) anytime for your device feature key, upgrade history and more.' There is also a link to 'Activate another license key' with a sub-note: 'All licenses keys require activation. If you purchased additional services, upgrades or LiveSecurity@ Renewal license keys, activate them now.' The footer contains copyright information for 1996-2007 WatchGuard Technologies, Inc., links for Terms of Use, Privacy Policy, and Contact Us, and an RSS 2.0 feed icon.

Comment appliquer une clef fonctionnelle

Cette étape décrit comment appliquer une clef fonctionnelle des deux manières possible; utiliser le WatchGuard System Manager (WSM) ou le boîtier Firebox X Edge.

Pour appliquer une clef fonctionnelle en utilisant WSM:

1. Copiez le texte de la clef fonctionnelle venant de la page web référencée en Etape 14
2. Sélectionnez **Setup** (préparation) => **Licensed Features** (fonctions sous licence). La boîte de dialogue des Fonctions sous licence va s'ouvrir et montrer les clefs actives sur le firebox que vous êtes en train de configurer.
3. Pour ajouter une nouvelle clef de licence, cliquez sur **Add** (ajoutez).
4. La boîte de dialogue **Add/Import License Keys** (ajoutez / importez des clefs de licence) apparaît.
5. Collez la clef fonctionnelle dans l'espace disponible. Séparez chaque clef additionnelle par un retour chariot. Pour importer des clefs multiples, cliquez sur **Browse** (navigatez). Localisez le fichier texte contenant le paragraphe délimitant la liste des clefs. Sélectionnez le fichier et cliquez sur **Open** (ouvrez).
6. Quand vous avez fini d'entrer les clefs, cliquez sur **OK** (ok). Les clefs apparaissent alors organisées par type dans la boîte de dialogue des Fonctions sous Licence.

Pour appliquer une clef fonctionnelle à un Firebox X Edge:

1. Copiez le texte de clef fonctionnelle provenant de la page web referencée dans l'étape 14
2. Avec votre navigateur web, naviguez jusqu'à la page **System Status** (état du système) de votre Firebox X Edge en utilisant l'adresse IP privée de votre boîtier.

Pour exemple, si vous utilisez l'adresse IP par défaut, allez sur: <https://192.168.111.1>

3. Sélectionnez **Administration** (administration) => **Upgrade** (mettre à jour) à partir de votre barre de navigation sur la gauche.
4. La page **Upgrade** (mettre à jour) va apparaître.
5. Collez la clef fonctionnelle dans la zone de texte
6. Cliquez **Submit** (validez)
